Update Log:

1/12/2021: V01 website is released. Contains some bugs (Alpha version)

1/14/2021: Website V01 is updated into V02. Fixed buttons for the contact page / More details and frames added to the website (Beta)

1/17/2021: Website V03 is released. The website more compatible with mobile devices

1/19/2021: Video page has been updated. All video's will now be displayed in the center of the webpage

1/30/2021: Website V04: The (Music Status Checker) page has been added to the website. It can only be accessed when user is in (my portfolio page.)

2/20/2021: Website V05: Gallery Added

4/2/2021: Website V06: NEW BANNER!!!!

6/8/2021: Website V06.1: Website status refresh. Music Status Checker is officially available on the website

10/14/2021 Website v06.2 Blog page and Gallery page are disabled.

12/17/2021: Website v06.3 About me page taken off site. Organized folders for the status page. prepping for massive site update 2022

12/22/2021 Website v07 Gallery page is back. (Currently only works on the computer version of the website.)

2/19/2022 Website v07 Updated repository to a newer version

6/17/2022 Updated profile pictures for both the index and contact pages. The Gallery page will be taken down for further updates along with the Music Status Page.

6/17/2022: Aboutme page is now merged with the index page. The musical Status page is now the directory page.

Current bugs/Currently Fixing:

- * Contact page buttons are not centered when the website is viewed on mobile version
- * When the website is not viewed horizontally on phone, parts of the website might not show on screen
- * Gallery page seems to only be working on the computer version of the website.
